

HOW DO WE LOAD A MOVING VAN?

For safety and fast loading, it is advisable to place the heaviest load in an **"H-shape"**. Use a lashing strap to prevent objects from slipping, it is also recommended to distribute the load evenly on the loading surface.

HEAVY OBJECTS

Start loading at the top of an **"I-shape"**, so it is recommended to place the heaviest items, such as a refrigerator or washing machine, in the front part of the cargo area.

MATTRESSES

Place the mattresses on the left side of the cargo area.

HEAVY BOXES

The **"H-shape"** will be complete by packing the remaining heavier boxes at the back of the cargo area, in the middle of the loading surface.

DOCUMENTS, VALUABLES

Keep your documents and minor valuables with you in the cab so you can easily access them whenever you need.

TABLES, HEAVY OBJECTS

Tables can be placed in the middle and we can put heavier boxes under them.

BEDS, COUCHES

Beds and couches should be placed on the right side, opposite the mattresses.

SMALL BOXES, HEAVY OBJECTS

It is recommended to place smaller boxes and other smaller items around heavier boxes so you can make the **"H-shape"** perfect.
